

Press the “**ON**” button in the top left corner and **TAP** the tablet to wake the screen.

Connect your device by using either the **HDMI** or **VGA** cable. The monitor will automatically display once you have made your selection.

*Note: **VGA** input requires 3.5mm audio connection.
Only use adapters if your device does not have **HDMI** or **VGA**.*

Push the **SHARE** button on the tablet.

The **volume** and **mic** mute keys on the tablet control the **speaker** volume and **mic** mute in the room.

Press the “**OFF**” button when you are done using the system.
