

Press the “**ON**” button in the top left corner

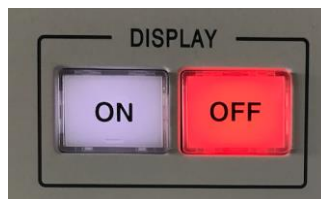

Connect your device by using either the **HDMI** or **VGA** cable. The monitor will automatically display once you have made your selection.

*Note: **VGA** input requires 3.5mm audio connection.
Only use adapters if your device does not have **HDMI** or **VGA**.*

The **volume** knob controls the **speaker** volume in the room.

Press the “**OFF**” button when you are done using the system.
